***Notes**

For vintage aircraft (pre January 1980), Refer to AC 23-27: Basically allows installation of a "similar series" PMA product. The installation should be indicated in the log book - as a MINOR alteration. Reference the original battery and replacement manufacturer's identification and specifications of original and replacement batteries.

For cases where appropriate PMA traceability is not clear, please contact Teledyne Battery Products' Customer Support. We will provide necessary documentation as needed.
